IM-16C

EFFICIENT DESKTOP LETTER OPENER

Quickly moving your mail to where
it needs to be

WE VALUE YOUR MAIL

IM-16C

INCOMING MAIL PROCESSING MADE EASY

Is your company operating with limited resources and a need to increase efficiencies? Turn to the Neopost IM-16C Letter Opener and maximize office productivity by distributing incoming mail faster throughout your organization. Whether processing cheques, orders, remittance pieces or any incoming mail, the IM-16C opens various envelope types, saves time, leaves no waste and protects valuable contents.

MAXIMIZE PRODUCTIVITY

The Neopost IM-16C letter opener can operate at speeds of up to 300 envelopes per minute, so opened mail is delivered faster. Easy-to use and extremely reliable, it can handle mixed mail without pre-sorting, and opens a wide range of envelope sizes. Its efficiency gives your staff extra time to concentrate on more important daily activities.

SAVE VALUABLE TIME

There are many advantages to getting the right mail to the right desk earlier. With the IM-16C, cash flow is improved as incoming payments get processed quicker. At the same time, orders are processed immediately to help improve customer satisfaction and enhance your business image.

PROTECT VALUABLE CONTENTS

While conventional letter openers can easily damage contents, the Neopost IM-16C uses an innovative method to neatly slit one side of the envelope, leaving no sharp edges. This means the contents are left undamaged and ensures safe handling. And its unique antijamming ability easily handles paperclips and staples.

PERFECT DESKTOP SOLUTION

With its innovative letter opening method, the IM-16C eliminates waste, leaving no messy scraps. Its compact size provides for perfect placement even when desk space is limited and also makes it easy to move and store.
