

The Most Convenient Solution for Customer Deliveries at Universities, Corporations and Other Locations

How do you make it easier for people to pick-up packages on their schedule? How do you handle unsuccessful, misplaced and unaccountable deliveries?

Packcity Intelligent Parcel Lockers are an automated electronic locker system that securely stores packages for easy consumer retrieval. They save time and money, providing a convenient and valuable service to residents and consumers.

Benefits of Packcity Parcel Lockers:

- Increased security and reduced risk of lost packages.
- Complete tracking and accountability with a log of every package drop-off and pick-up – 100% chain of custody.
- Reduction of labour costs. Fewer resources required to deliver packages to lockers, eliminating the need to drop-off at every desk, station, etc. Labour savings alone can justify cost of system.
- Eliminates the need for multiple delivery and re-delivery attempts.
- Signature no longer required. Electronic records alleviate this.
- 24/7 convenient access for parcel pick-up.
- Your choice of email or text notification to receive retrieval pin code.

Package drop-off and retrieval in three easy steps:

- 1 Place package into the locker. Recipient receives notification of delivery via email/SMS.

- 2 Recipient enters one-time PIN code.

- 3 Door opens for package retrieval.

x-Large	28.8" x 17.4" x 24.1"			1
Total Lockers		10	9	8

Why Choose Neopost?

Neopost is a world leader in mailing solutions and a major player in digital communications and shipping services.

Our innovative solutions help guide and support organizations in how they send and receive communications and goods, helping them to better connect with their customers.

In today's world of increased dependence on technology, Neopost believes that one thing remains unchanged: the real engine for success is people. Because it's people who drive business forward. Neopost appreciates and nurtures the human side of business and thinks of its customers as individuals, not as organizations.

We believe in creating partnerships based on trust in order to meet customers' changing needs.
