

A proven process for package receiving, chain of custody and proof of delivery.

Package receiving, chain of custody and proof of delivery

Ensure important packages are received and delivered correctly with WTS Lite. Use the data entry forms to collect information important to you. Capture an electronic signature for proof of delivery using a signature pad or mobile device.

Provide better service

WTS Lite can send an email or text message to recipients when a package is received or at any stage of the delivery process. For example, WTS Lite can send an email on receipt of a package on first delivery attempt and when delivered. You can customize up to three statuses to match your workflow. Each status can alert recipients on the location of their package.

Fast shipment research when the pressure is on

Whether you need to know about the status of an urgent package or you are looking for historical data about packages received days, months or even years ago, WTS Lite delivers. Finding historical package data is super fast. Data is searchable for up to seven years.

Easy to implement

Be up and running within minutes of your account being set up and equipment received. WTS Lite is intuitive and easy to use. WTS Lite is on our powerful and secure cloud so there's no software to install.

Industry-standard peripherals

Combine a scanner with your computer for quick receiving/recording of carrier packages. Need additional information on a package before delivery? No problem - simply connect a label printer, create customer receipt labels and then use a rugged handheld computer to mobilize receipt and delivery.

Receive

Receive a package by simply scanning a barcode.

Deliver

Communicate delivery status to your staff and employees.

Confirm

Capture a signature with a mobile device or signature pad.

Why Choose Neopost?

Neopost is a world leader in mailing solutions and a major player in digital communications and shipping services.

Our innovative solutions help guide and support organizations in how they send and receive communications and goods, helping them to better connect with their customers.

In today's world of increased dependence on technology, Neopost believes that one thing remains unchanged: the real engine for success is people. Because it's people who drive business forward. Neopost appreciates and nurtures the human side of business and thinks of its customers as individuals, not as organizations.

We believe in creating partnerships based on trust in order to meet customers' changing needs.
